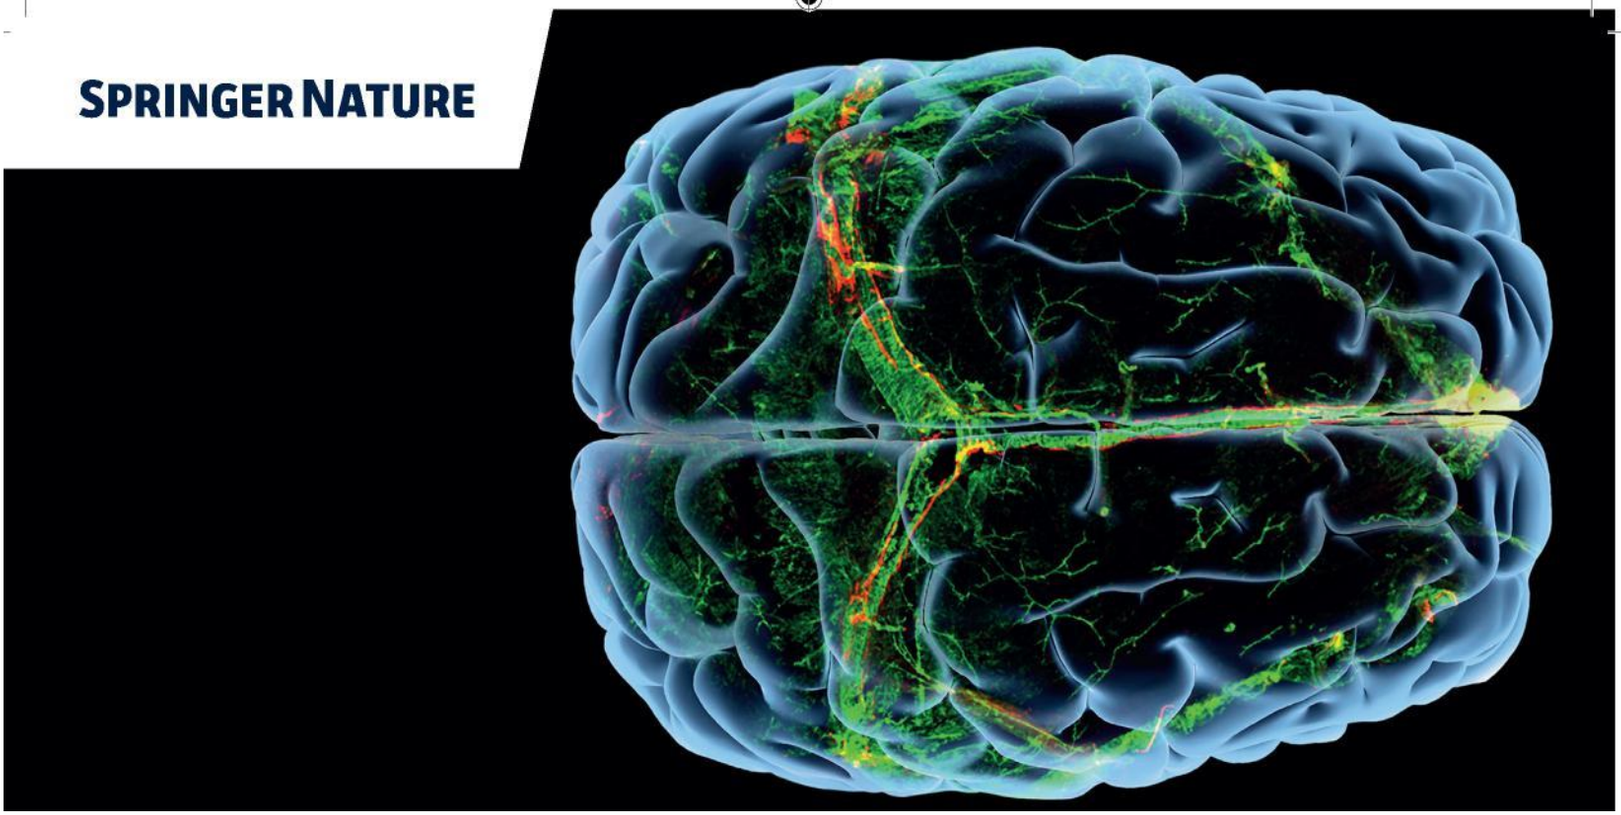
SPRINGER NATURE



Neuropsychopharmacology Introducing NPP Briefs

A collection of brief communications

The **NPP Briefs** collection provides researchers with a streamlined path to publishing high-quality concise, stand-alone original research in a leading journal. These briefs deliver complete but focused stories— ideal for novel findings, urgent results, replication studies, or negative data that merit rapid dissemination.

In partnership with **Springer Nature**

Key Features:

- **Format:** 50-word abstract, 1 multi-panel figure or table
- **Length:** Maximum 1,500 words and 15 references
- **Review:** Rapid peer review turnaround time with an accept/reject decision; no major revisions permitted

By expanding its content pipeline and offering a valuable publishing option, NPP reinforces its commitment to advancing scientific progress and supporting the research community.

APC is 40% less than the full rate
