

Take-Home Advent Calendars

In the spirit of creating space to intentionally look forward to Jesus' arrival as the light of the world and trying to Rejoice in the everyday, we are offering Advent Calendars to take home and do on your own or with those in your household. Every day, starting December 1st, there is a calendar door to open as we look toward Christmas and the birth of our Savior. Inside you'll find a QR code that takes you to a small prompt, prayer, or activity, to spur our engagement of this season. There's also some treats & components to something you'll be building along the way!

DIRECTIONS & TIPS:

- Please handle these calendars gently... they are hand-packed with love by us (not professionally done).
- Start with number 1 on December 1st, Christmas Day will be number 25
(hint: you have to search for each number)
- Scan the QR code first to get that day's prompt, then use scissors to cut through the paper and saran wrap and get to what's packed in that day's square.
- If you get excited and forget to scan the QR code, or if you need to go back to the prompt after you've cut through the it, each day is at this link: faithadventure.com/advent-2026-dec-01
(just change the "01" for whatever day you are on, for example, "09" on the 9th of Dec, "23" for the 23rd of Dec)
- There will be some treats along the way – if you are opening this as a family, consider taking turns savoring those treats, or cutting/dividing them into small pieces so you can each savor something sweet together for a moment.
- If you have any questions or issues with your boxes, please email sam@faithadventure.com

A Candle Lighting Devotional will also be available if you have decided to do an Advent Wreath at home and would like to use this resource to accompany your weekly candle lightings. Find paper copies at the church, or a digital copy on our website and app, starting Nov 29th. More info on how to prepare for this practice is available in the "Looking Forward to Advent" Packet that is available now.
