## EMT/AEMT/Paramedic Hybrid Refresher Course

### Course Overview

In ACE4EMS' hybrid refresher course design, participants are offered a flexible schedule that minimizes demands upon an individual's schedule, while still providing quality, valuable, and relevant continuing education.

### Why ACE4EMS Refresher Course?

These are hybrid course which take place mostly through self-paced distributive education. There are multiple topic presentations and required readings that cover the required NCCP topics. All presentations have been pre-designed and will be available to participants upon paid registration and accessible 24/7 to be completed at your convenience. You can get started as soon as you register. Participants are expected to complete all assignments within two weeks after completion of the skills day to process NREMT and LA Bureau of EMS before the last day the last day of March.

### Provider Compliance

These refreshers meet the mandatory requirements of the National Continued Competency Program required for all levels of NREMT recertification from 2016 onward.

### Course Delivery

Specific to the distributive education component upon completion of material review on each topic, participants will be required to take a brief quiz for which a grade will be received. Course completion requires that participants obtain at least an average score of 75% to pass the course.

### Continuing Education Hours

EMT consist of 20 comprehensive hours of education including 8 classroom hours and 12 hours of self-directed study.

AEMT consist of 25 comprehensive hours of education including 8 classroom hours and 17 hours of self-directed study.

Paramedic consist of 30 comprehensive hours of education including 16 classroom hours and 14 hours of self-directed study.

### Course Content

In addition to didactic materials, participants will receive a list of NREMT skills that will be addressed in the live classroom setting to complete the skills checkoff and certificate of completion.

Classroom sessions will focus on skills practice and checkoffs, and integration of concepts covered in the online self-study assignments.
