

## **BAOS Core CPD Course 8-9 May 2017**

### **Antimicrobial resistance and antibiotic prescribing in Dentistry**

#### **About the speaker**

**Dr N O A Palmer BDS MFGDP(UK) PhD  
FDSRCSEng FFGDP(UK)**

**Clinical Adviser in Dental Education and  
Research Fellow Health Education North West**

Dr Palmer qualified from Liverpool Dental School and worked in mainly NHS general practice both as an associate and a principal until retiring clinical practice.

He completed research on antibiotic prescribing in general dental practice and was awarded his PhD in 2001.

He has published numerous scientific and educational papers on antibiotic prescribing and co-authored the FGD(P(UK)) guidelines on antimicrobial prescribing for general dental practitioners. He has delivered many lectures to foundation dentists, postgraduates, MSc groups, research meetings and maintains research interests in antibiotic prescribing.

He is currently clinical advisor in dental education and research fellow at Health Education England-North West, works part time as a dento-legal adviser for Dental Protection, is an honorary lecturer at Liverpool Dental School and is a member of national committees relating to antimicrobial prescribing and resistance.
