Renewable Energy for all
New Mexicans is no far-off dream.
It is a vibrant reality, within our reach.
We are the first generation to feel the
effects of climate change, and we
may be the last to be able to do
anything about it.

In one Spirit, in common cause,
let us make this vision real.

this is our home
these are our people
this is our challenge
this is our time

we have the funds
we have the tech
we have the vision
we have the will

People of all faiths, hear the call:
