

# God So Loved the World... But Do We?

In his encyclical, 'Laudato Si,' Pope Francis insists that addressing the problems of pollution is not enough. The Pope says, "There needs to be a distinctive way of looking at things, a way of thinking, policies, an educational programme, a lifestyle and a spirituality which together generate resistance to the assault of the technocratic paradigm." This morning with Sr. Dianne Bergant is devoted to an exploration of this "distinctive way of looking at things," through presentations, experiential/spiritual practice, discussion, and Question and Response time.
