MENTORSHIP & DISCIPLESHIP TERM 2 2026

As always, the mentorship department plans and implements a work plan where we have designed time to provide mentorship to sponsored children in partner schools and University students. This is a time when we get to understand deeply the lives and personal concerns of each student which offers an opportunity to touch key areas which the parents and schools could perhaps miss.

During term 2, we visited schools in June and August. The University students met at the office in May and all these encounters were so amazing. It is such a joy and pride to pour energy and wisdom into the lives of future leaders who we believe will cause transformation in their families and the nation at large.

This year's discipleship theme is "I BELONG TO JESUS" - 1 Corinthians 3:23. Each of us simply needs to know that Christ paid a price when He shed His precious blood for all mankind and therefore when we accept Him as Lord and personal Savior of our lives, we become His forever. With this theme, we really intended to inculcate a value and an understanding in the hearts of all students that Christ cares for their lives and so, they should live a life of hope with the assurance of His salvation.

During the mentorship sessions in the respective schools, we deliberated on Kingdom living and Jesus being the King in God's Kingdom.

We labored to teach how the Spirit of God works in us all to fulfill our purpose on earth. The Spirit of God is a spirit of order and therefore discipline among students is key to academic excellence. It was further emphasized how important discipline is if the goals for sponsorship and the dreams for students will be achieved.

We further challenged students to share the message of Christ's love with others in order to expand the kingdom of heaven. Preaching the gospel through sharing the little grab, praying for others, being concerned about non-sponsored students who have not paid tuition and so many other ways brought a lot of energy on hearing such powerful strategies to make Christ known.

The same message was preached during parents' meetings and to students during Camp Re-Imagined and it blessed everyone. Our prayer is that God continues to grow all students in His perfect, unsearchable ways and we believe that we shall reap huge harvests, especially from those who do not simply listen but also do the Word.

God bless you all.
