I know I am lucky to be living in this affordable home. It gives me the opportunity to grow my skills so that I can think about my next steps, like getting a stable job and my own place someday.

– Brandon, a resident with I/DD living in affordable housing created by an LHA member organization.

LHA HOUSING THOUGHT LEADERS SUMMIT

WHO WE ARE

LHA is a statewide alliance that serves as a catalyst for the creation of affordable, supportive housing for Californians with intellectual and developmental disabilities (I/DD). Our members collectively have secured thousands of units reserved for this vulnerable population. LHA's ability to bring together builders, regional centers, funders, policymakers, and other key stakeholders uniquely positions us to meet our objective to increase housing opportunities for people with I/DD.

WHAT WE DO

We connect the housing sector and the I/DD service system to resources and people that enhance their ability to create inclusive, affordable homes for individuals with I/DD. LHA facilitates the sharing of actionable data, best practices, innovation, and multisectoral knowledge. Finally, we partner with thought leaders, policy makers, and elected officials to advocate for legislative solutions and the creation of new resources needed for our alliance members to meet their housing goals.
