Proceeds Benefit

Valley Children's HOSPITAL

Bots 4 Tots

What is Bots 4 Tots?

Bots 4 Tots is a student-made community event hosted by Kassandra Rodriguez. The goal of this event is to have participants collect their loose change or dollars in baby bottles and turn them in by April 6th of 2022 to donate to the NICU Department at Valley Children's Hospital. Every day, the nurses and doctors at Valley Children's makes it their mission to keep fighting for the health of more than 1.3 million children living in all areas of Central California. Your gracious actions of donating can help support the needs of the NICU as well as supporting the children and their families during this stressful time.
