MAP Sponsor Offers Manufacturers a Free Competitor Evaluation and Profitability Diagnostic Report

MAP Sponsor:

Growth 1776

Profit from our experience

Growth 1776 was built to help manufacturers achieve higher profitability and sales. Most small to medium sized companies don't have the ability to access or leverage the data needed to apply meaningful analytics. This, combined with the cost of the sophisticated technology needed puts this type of analytics out of reach for most SMB's.

We bring you the benefits of Fortune 500 "big data" analytic capabilities tailored to the SMB market. Here's how:

- Minimal inputs: 6 data points that every company has
- Maximum value: 2-5 points improvement in gross margin
- Shortest time to value: 7 days
- No capital outlay or investment required
- No implementation and guaranteed 3x's return on any fees paid

Our approach and capabilities spotlight profit insights that can't be identified from spreadsheets, dashboards, financial reports, or off-the-shelf BI tools.

The good news is that we have leveled the playing field, making Fortune 500 data analytics available to SMBs on a Main Street budget. *As a MAP sponsor we will conduct a free competitor evaluation AND a free Sales Driven Profit Diagnostic report for the first 25 interested companies.* This is an incredible opportunity to get the business intelligence you need to grow your sales and profits.

Please send an email with your name, company and contact info to kristinl@growth1776.com and we will get you set up with your free diagnostic reports.

More profit from existing business. Simple. Certain. Fast.
