7	- Leaves shipped by fire rating, by FLUSH and by STILE and RAIL

SECTION 1

Greetings,

We are excited to begin the 2018/2019 survey process of collecting member data for the WDMA Annual Report on US Architectural Doors. Your participation is crucial to our ability to analyze member data for the annual report.

For 2018 the survey has been shortened and only asks for 2018 data, as opposed to the prior 3 years' data.

Before taking the survey, make sure the following steps have been completed:

1) Have shipment data for the prior year (2018) accessible and available.
2) Only include leaves manufactured by your company, not those outsourced.
3) Only report on leaves that were shipped. Once within the survey, please report leaves shipped as an accurate number or report a percentage of total leaves shipped;
4) Read the instructions for each section of the survey and follow them as you go;
5) Read definitions of terms before taking the survey to ensure you have them correct;
6) Utilize the survey programming correctly. You will be able to log out and SAVE progress per page while using the survey and move BACK per page in the survey to previous questions.

Do not hesitate to contact us with questions or concerns. Finally, our privacy guarantee is below this email for reference.

We appreciate your time and look forward to your responses.

Sincerely,

The WDMA, Hanley Wood, and Farnsworth Group Survey Team

Privacy Guarantee

The research team, under the auspices of the WDMA Annual Report on US Architectural Doors, is interested in collecting from industry partners data related to the shipment of products in the residential and commercial markets. These data will be used only for the purpose of reporting, forecasting and analyzing by Census Region. Publications derived from this research will protect the confidentiality of the persons and companies from which data were collected. No company names, personnel names or product brand names will be included in publications.

Research Team

Michael O'Brien, President & CEO - WDMA
Steve Orlowski, Senior Director, Standards and Technical Activities - WDMA
J Glasnapp, Strategic Account Manager - Hanley Wood
Grant Farnsworth, Business Development Director - The Farnsworth Group

Please enter your email address to proceed. This email address will be tied back to your data. You may exit the survey and come back at any time, however you will need to enter this same email address to proceed where you left off.

Email address _____

SECTION 2 - DEFINITIONS

The following survey terms refer to definitions agreed upon by the marketing committee for "Product Categories" used in this survey.

SURVEY TERM	**DEFINITION - Based on how the products are CONSTRUCTED and not final sales.**
Architectural Interior Flush Doors	These leaves are flat (slab) doors containing a core material and door skin, including molded or sketch (configured) skin construction. They are intended for interior, commercial application. They are to be counted based on the number of slabs (e.g., a double door counts as 2).
Architectural Interior Stile and Rail Doors	These leaves are non-flat frame and panel doors assembled from stile, rail and panel parts and intended primarily for interior, commercial application. This also includes routed doors. They do not include molded or sketch (configured) skin construction, included in Flush doors above. They are to be counted based on number of leaves (e.g., a double door counts as 2).
Other Architectural Interior Door Leaves	These are architectural doors other than flush or stile and rail, intended primarily for interior, commercial application, and are not included in the any other architectural door totals. They are to be counted based on number of slabs or leaves (e.g., a double door counts as 2).

Please acknowledge here that you have read these terms for using in the survey: Yes/ No

SECTION 3 – TOPLINE

This section represents shipment data for the survey, where you will need to report TOTAL numbers of products shipped. This survey is based on shipped leaves of **architectural interior flush, stile and rail, and other architectural door leaves** ONLY**. No residential door leaves should be included in this survey.** Please take time to collect data on the leaves provided, panel and core material type before proceeding.

q01

Please enter your name: _____
Please enter your company name: _____
Please enter your company email address: _____

q02

Based on the product definitions, please report the TOTAL number (#) of architectural door leaves your company shipped in the U.S. by type below:

	2018
Architectural interior flush door leaves	
Architectural interior stile and rail door leaves	
Other architectural interior door leaves	

SHOW Q04B if "Other Arch" at Q02 is > 0

q04B

You mentioned you've shipped 'Other architectural interior door leaves' that weren't interior flush or stile and rail. Please describe what the other type of architectural doors are.

q05 – SHOW IF 'ARCHTIECTURAL INTERIOR FLUSH DOOR LEAVES' IS >0 AT Q02

Based on the TOTAL number (#) of **architectural interior flush door** leaves, please report the percentage (%) your company shipped in 2018 in the U.S. by **core material** type below:

Please note: percentages MUST be entered as a number between 0 and 100 and each column of percentages MUST add to 100%.

	2018
Particleboard (PC)	
Medium Density Fiberboard (MDF)	
Structural Composite Lumber (SCLC)	
Stave Lumber Core (SLC)	
Laminated Veneer Lumber Core (LVLC)	
Fire Resistant Composite Core (FD)	
Other	

Q06 – SHOW IF 'ARCHITECTURAL INTERIOR FLUSH DOOR LEAVES' IS >0 AT Q02

Based on the TOTAL number (#) of **architectural interior flush door leaves**, please report the percentage (%) your company shipped in 2018 in the U.S. by **face material** type below:

Please note: percentages MUST be entered as a number between 0 and 100 and each column of percentages MUST add to 100%.

	2018
Wood Veneer	
Medium Density Overlay (MDO)	
Medium Density Fiberboard (MDF)	
High Density Fiberboard (HDF)	
High Pressure Decorative Laminate (HPDL)	
Low Pressure Decorative Laminate (LPDL)	
Molded Skin	
Sketch (configured) Skin	
Other	

q07 – SHOW IF architectural interior stile and rail door leaves >0 AT Q02

Based on the TOTAL number (#) of **architectural interior stile and rail door** leaves, please report the percentage (%) your company shipped in 2018 in the U.S. by **panel construction** type below:

Please note: percentages MUST be entered as a number between 0 and 100 and each column of percentages MUST add to 100%.

	2018
Raised Panel	
Flat Panel	
Glazed	
Louver	
Mixed	
TOTAL	100%

q08 – SHOW IF 'RAISED PANEL OR FLAT PANEL' >0 AT Q07

Based on the TOTAL number (#) of **raised and flat panels**, please report the percentage (%) your company shipped in 2018 in the U.S. by **panel material** type below:

Please note: percentages MUST be entered as a number between 0 and 100 and each column of percentages MUST add to 100%.

	2018
Solid MDF (router carved)	
Solid Lumber	
Wood Veneer	
Other	
TOTAL	100%

q09 - SHOW IF 'ARCHITECTURAL INTERIOR FLUSH DOOR LEAVES' IS >0 AT Q02

Based on the TOTAL number (#) of **architectural interior flush doors leaves**, please report the percentage (%) your company shipped in 2018 in the U.S. by fire rating level below.
Please note: all percentages MUST add to 100%.

	2018
No rating	
20-minute rating	
45-minute rating	
60-minute rating	
90-minute rating	
TOTAL	100%

Q10 - SHOW IF architectural interior stile and rail door leaves >0 AT Q02

Based on the TOTAL number (#) of **architectural interior stile and rail door leaves**, please report the percentage (%) your company shipped in 2018 in the U.S. by fire rating level below.

Please note: all percentages MUST add to 100%.

	2018
No rating	
20-minute rating	
45-minute rating	
60-minute rating	
90-minute rating	
TOTAL	100%

CM6. (ON OWN PAGE)

You have reached the end of the survey. Please take a minute to check your answers. If you like you may close the survey and come back at a later time to finish. If you are finished inputting all your data, please click on SUBMIT below.
