

## Elementary Progress Report in Empower

If you are looking in Infinite Campus and see a score of IP for a class, then that teacher is using a program called Empower to communicate your child's learning progress. Illustrated below are directions on how to read the elementary Progress Report in Empower.

If you are unsure how to log into Empower to see the learning progress, you can email [rothert@district112.org](mailto:rothert@district112.org) for your login information.

The screenshot displays the 'Empower Progress Report - Where to check for learner progress' page. At the top, a header bar includes the 'Progress Report' logo and the page title. Below the header, a user profile section shows 'Tech, E16' and 'Student Performance Lvl:'. The main content area lists three sample classes, each with a 'Course Score' and 'Current In Progress Grade'. Annotations with red boxes and arrows point to specific features: one points to a clock icon with a red '1' next to the first class, another points to the 'Current In Progress Grade NY' for the second class, and a third points to a plus sign icon next to the third class. A green box at the bottom left explains that the 'Current In Progress Grade' reflects completed Learning Targets and Power Standards. A black box at the bottom center provides a note that the 'Current In Progress grade' is determined from the 'Course Score' and applied to the table to the right. A green box at the bottom right explains that to see individual activities and assessments, the user should expand the course by clicking the plus sign. On the right side, a sidebar contains links to 'Target Browser', 'Student Home Page', and 'Grading Glossary'. Below these links, a section titled 'In Progress Grade' lists four categories: EL (3.25 <= EL <= 4.0), ML (2.4 <= ML < 3.25), BL (2.0 <= BL < 2.4), and NY (has received an Approaching or NY on any Learning Targets within Course). At the bottom of the sidebar, a 'PS Score' section indicates a 'Range Score from 0-4' and includes a legend for 'NS - Not Scored, No evidence'.

Student Performance Lvl:  
Reporting Period

Look for any Missing Activities that need to be completed.

Look for any NYs (Not Yet) on the Current In Progress Grade. This indicates a need for further learning to be completed around at least one learning target.

Current In Progress Grade reflects completed Learning Targets and Power Standards.

Note:  
Current In Progress grade is determined from the Course Score and applied to the table to the right.

To see individual activities and assessments, expand the course by clicking here.
