BEYOND THE POLICY

Training

Empowering the Faith Community to Recognize & Respond to Child Abuse & Sexual Assault

Hosted by: **REV. KARI VADIS**

Overview: The church is the perfect environment for an abuser to show up in sheep's clothing. The primary goal of this workshop is to help pastors and congregations be prepared for situations regarding abuse. In addition, this course will look at best practices for prevention and responding to disclosures of abuse. By the end, I hope to inspire faith leaders to see the significant role they have in protecting and caring for victims/survivors.
