Introductory Classes

PC COMPUTING BASICS 1

4 sessions of 2.5 hours Cost: $45.00

HUNTINGTON LAB: Thursdays from 9:30 AM - 12:00 PM on July 30, August 6, 13, 20

BLUE POINT: Wednesdays from 1:00 PM - 3:30 PM on July 22, 29, August 5, 12

To begin this class, you need to know nothing about computers and simply have a desire to learn. Students will learn how to properly start and stop a Windows computer. From there we will teach and give you experience with the most used computer functions: using the mouse, keyboard, and desktop, word processing, accessing the Internet, creating and responding to emails, and how to use flash drives for performing classroom exercises.

Prerequisite: none

PC COMPUTING BASICS 2

4 sessions of 2 1/2 hours Cost: $45.00

HUNTINGTON LAB: Thursdays from 9:30 AM – 12:00 PM on September 3, 10, 17, 24

This four-lesson class will build on the skills you started to develop in PC Computing Basics 1. We will teach you to enhance your desktop, the basics of the file system, and advanced features of word processing. We will teach you how to access the Internet and how to save your most frequently visited websites. Additionally, you will learn how to use the new free Microsoft Outlook mail client.

Prerequisite: PC Computer Basics 1 or comparable skills or permission from the instructor.

The Computer

EXPLORING FILES AND FOLDERS WITH WINDOWS 11

2 sessions of 2 1/2 hours **Cost: $25.00**

BAY SHORE ANNEX: Thursdays from 10:30 AM - 1:00 PM on Sept. 17, 24

HUNTINGTON LAB: Mondays from 9:30 – 12:00 PM on July 20, 27

Managing files is one of the most important tasks for personal computer users. Simply stated, if you can't locate a file, you can't use it. You'll learn how to create a filing system, how to create folders, and how to navigate through the filing system that you designed.

Prerequisite: PC Computing Basics 1.

The Internet

ARTIFICIAL INTELLIGENCE: HANDS ON

1 session of 2 hours **Cost: $15.00**

BAY SHORE ANNEX: Tuesdays from 10:00 AM - 12:00 PM on July 21

HUNTINGTON LAB: Wednesdays from 10:00 AM - 12:00 PM on September 9

There has been a lot of buzz around AI lately. But what is this latest technology craze really about? How does it work and what are the risks? Learn about the state of AI at the moment and get hands on experience using the biggest names in AI, Microsoft's Copilot and OpenAI's ChatGPT.

GOOGLE DOCS: BEGINNERS

2 sessions of 2 1/2 hours **Cost: $25.00**

BAY SHORE ANNEX: Wednesdays from 1:00 PM - 3:30 PM on July 8, 15

BLUE POINT: Mondays from 10:00 AM - 12:30 PM on August 17, 24

Google provides a complete suite of FREE Apps for word processing, spreadsheets, email, calendars and more. This class will teach you the basics of the Google Docs word processor to create and format documents. Write a letter, create minutes from a meeting, produce a newsletter; it's all possible using Google Docs.

GMAIL BASICS

2 sessions of 2 1/2 hours Cost: $25.00

BAY SHORE ANNEX: Mondays from 9:30 AM - 12:00 PM on August 3, 10

Gmail, Google's FREE email app, makes it easy to open, read, reply to and compose new emails, and it's becoming even more popular since it's built into the Chromebooks that have caught on as an affordable computer option. In this class you'll learn how to use Gmail's basic features including how to add contacts in an address book, attach files such as pictures and documents to emails, and forward emails to others.

If you've never used email before or don't have a Google account, this class will help you get started; and if you're using another email service now, you'll learn why Gmail may be an attractive option. If you have a Google account please bring the name of the account and password with you. You're welcome to bring your own Chromebook, PC or Mac to class.

Mobile Devices

IPHONE: GETTING STARTED

2 sessions of 2 1/2 hours Cost: $25.00

BAY SHORE ANNEX: Mondays from 11:00 AM - 1:30 PM on July 6, 13

Starting from scratch or taking this class as a refresher, you'll gain confidence using an iPhone. Basic subjects covered are communicating with others using the phone, email, and text messages, and using Safari (Apple's internet browser). Building on this, we will cover using voicemail and contacts (the address book), as well as downloading and organizing apps. In short, this two-lesson class will give you confidence in using this incredible device.

IPHONE: AN INTRODUCTION

4 sessions of 2 1/2 hours Cost: $45.00

HUNTINGTON LAB: Thursdays from 1:00 PM - 3:30 PM on July 16, 23, 30, August 6

You'll learn about iPhone settings and navigation, how to use the iPhone's native apps, how to find and download third-party apps, how to use the iPhone camera, Safari – Apple's internet browser – how to send email and text messages, how to use Siri (so you don't have to type!), and even how to make phone calls! You will also be introduced to Maps, the Calendar, Reminders, and Notes Apps, and some basic uses of iCloud. In short, this course will teach you everything you need to know to be able to use this incredible device. **Students are encouraged to bring their iPhone to class.**

APPLE WATCH: WHAT YOU WANT TO KNOW

2 sessions of 2 1/2 hours Cost: $25.00

HUNTINGTON LAB: Wednesdays from 1:00 PM - 3:30 PM on September 9, 16

Since 2015, when the Apple Watch arrived, it has been gaining more and more functionality, which means more and more to learn about using it to its full potential. First and foremost, let SeniorNet show you what the Apple Watch can do to help you with emergencies in your everyday life: it can monitor your heart rate and alert you to a problem, detect falls and car crashes, and then automatically call for help. Your Apple Watch can be your phone as well. You can answer and make phone calls without having your phone ring and disturb others, and read and send text messages. It functions as a fitness tracker and even alerts you when it's time to stand up and move around for a few minutes. Join the SeniorNet Apple Watch class to explore this amazing "wearable device" and learn more about it and what it can do for you.

IPAD: GETTING STARTED

2 sessions of 2 1/2 hours Cost: $25.00

BLUE POINT: Mondays from 11:00 AM - 1:30 PM on July 20, 27

You'll learn about iPad settings and navigation, displays, home screen and dock settings, sounds and haptics, iCloud, contacts, sending and receiving emails, managing email, messaging (texting), saving photos from a text or an email to your Photos app, texting or emailing photos, using the iPad native apps and more.

Media

MAC PHOTOS: ORGANIZING YOUR PICTURES

3 sessions of 2 1/2 hours Cost: $35.00

HUNTINGTON LAB: Wednesdays from 1:00 PM - 3:30 PM on Jul 1, 8, 15

Your photos are one of your most precious possessions. We will explore the app and how it can help you work with all your photos in the most efficient way. You will need to bring your charged, Mac laptop and a mouse (if you use one) to class. iPads and iPhones CANNOT be used for this class.

CANVA: AN INTRODUCTION AND MORE

4 sessions of 2 1/2 hours Cost: $45.00
BAY SHORE ANNEX: Tuesdays from 9:30 AM - 12:00 PM on September 8, 15, 22, 29

This is a special class designed for those of you who have been using Microsoft Publisher and now will be working with Canva, an online graphic design program, as its replacement. You have created newsletters and calendars for your organization and do not want to have to recreate your templates. In four lessons, we will get you started on your way.
Canva is an online graphic design app. It can help you transform the way you create with AI-powered tools. It is very user friendly and offers a large assortment of templates, images and design elements to help you make cards, invitations, certificates, newsletters, Facebook pages and so much more.
Class 1 & 2 – You will learn how to navigate through the many elements of this program. Using templates, images, and design elements you will learn the basics in creating invitations, flyers, certificates and publications.
Class 3 & 4 – Now that you understand the basics, learn how to import your publications from Publisher, easily edit them and create templates. Students will be invited to bring their publications to the last class. We will work with you to import them into Canva.

Perhaps you haven't had time for a full class and just want to solve one technical problem.

We offer personalized problem solving for smartphones, tablets, laptops, and desktop computers (Mac, Chromebook and PC). Just let us know what you want to learn and we'll match you with an experienced teacher. **You coordinate the day and time with the instructor.**

Available at Huntington, Bay Shore, Blue Point and Yaphank

Cost: $20 for each hour!

Upcoming Free Zoom Events:

- **Smartphone Photography – Tuesday, July 14 - 2:00 PM**
- **Android Phone: Getting Started – Thursday, July 16 – 2:00 PM**
- **Google More Than A Search Engine – Wednesday, August 5 – 2:00 PM**
- **Researching Trusted Online Medical Information – Tuesday, August 11 – 2:00 PM**
- **Windows 11: An Introduction – Tuesday, September 15 – 2:00 PM**

To attend any of the above, go to our website, www.seniornetli.org and under Current Courses, click on webinars and seminars and register for the event of your choice.
