The spring semester begins on April 1st. Registration opens on March 15. To register, go to our website www.seniornetli.org and click on Current Courses on the menu bar at the top of the page.

Introductory Classes

PC COMPUTING BASICS 1

4 sessions of 2.5 hours each Cost: $45.00

Yaphank: Tuesdays from 9:30 – 12:00 Noon on April 14, 21, 28 and May 5

To begin this class, you need to know nothing about computers and simply have a desire to learn. Students will learn how to properly start and stop a Windows computer. From there we will teach and give you experience with the most used computer functions: using the mouse, keyboard, and desktop, word processing, accessing the Internet, creating and responding to emails, and how to use flash drives for performing classroom exercises.

Prerequisite: none

PC COMPUTING BASICS 2

4 sessions of 2 1/2 hours Cost: $45.00

BAY SHORE: Thursdays from 9:30 AM - 12:00 PM on April 30, May 7, 14, 21

This four-lesson class will build on the skills you started to develop in PC Computing Basics 1. We will teach you to enhance your desktop, the basics of the file system, and advanced features of word processing. We will teach you how to access the Internet and how to save your most frequently visited websites. Additionally, you will learn how to use the new free Microsoft Outlook mail client.

Prerequisite: PC Computer Basics 1 or comparable skills or permission from the instructor.

MAC COMPUTER ADVANCED

4 sessions of 2 1/2 hours Cost: $45.00

HUNTINGTON LAB: Thursdays from 9:30 AM – 12:00 PM on May 7, 14, 21, 28

Continuing on from where *Mac Computer Basics* left off students will be introduced to and learn to use *iCloud* and *iCloud+* for online storage of photos and documents, and *Stage Manager* to organize their desktops more efficiently. In addition, the usage of Split-Screen, Dictation, Airdrop, Live Text and taking screenshots is taught.

This is a hands-on class. Students will need to bring a Mac laptop and mouse (if you use one) to each class. Please make sure your laptop is charged and running the latest operating system, Sequoia Mac OS15, which will be updated in iOS 26 to Tahoe.

***Prerequisite: Mac Computer Basics*. (This is a must.)**

CHROMEBOOK: BASICS AND MORE

3 sessions of 2 hours Cost: $35.00

Yaphank: Tuesdays from 9:30 AM - 12:00 PM on May 19, 26, Jun 02

Discover the essentials and the ease of using a Chromebook in this beginner friendly course. Students will learn how to navigate the interface, save and retrieve files, manage apps, browse the web, and be introduced to Google tools like Docs and Drive for productivity. Accessibility options aid seniors in personalizing the device for their needs.

Students are invited to bring their Chromebooks to class. Bring your charger and your Gmail password if you have one.

The Computer

EXPLORING FILES AND FOLDERS WITH WINDOWS 11

2 sessions of 2 1/2 hours Cost: $25.00
BLUE POINT: Thursdays from 1:00 PM– 3:30 PM on May 7, 14
BAY SHORE ANNEX: Mondays from 11:00 AM - 1:30 PM on April 13, 20
HUNTINGTON LAB: Mondays from 1:00 PM - 3:15 PM on May 11, 18

Managing files is one of the most important tasks for personal computer users. Simply stated, if you can't locate a file, you can't use it. You'll learn how to create a filing system, how to create folders, and how to navigate through the filing system that you designed.
Prerequisite: PC Computing Basics 1.

WINDOWS 11: AN INTRODUCTION

2 sessions of 2 1/2 hours Cost: $25.00
HUNTINGTON LAB: Thursdays from 1:00 PM - 3:15 PM on April 9, 16

Windows 11 is Microsoft's new operating system. Does your computer have the prerequisite hardware and software in order to upgrade it? Join SeniorNet in this two-week class to learn the fundamentals of the Windows 11 operating system. We will teach you how to customize your computer and cover many of the differences between Windows 10 and 11.
Prerequisite: PC Computer Basics 1.

WINDOWS 11: ADVANCED

2 sessions of 2 ½ hours Cost: $25.00
HUNTINGTON LAB: Thursdays from 1:00 PM - 3:15 PM on April 23, 30

In this two-lesson class we will teach you some of the more advanced tools of the Windows 11 operating system. Among the many other features of Windows 11, this class will include how to install programs, the new and (more useful) File Explorer app, and some of the options you have in case your computer malfunctions. It is highly suggested that you complete
Windows11: An Introduction prior to taking this class.
Prerequisite: PC Computing Basics 1 or 2, Windows 11: An Introduction, or comparable skills.

MICROSOFT EXCEL: BASIC

3 sessions of 2 ½ hours Cost: $35.0

BLUE POINT: Thursdays from 1:00 PM– 3:30 PM on May 14, 21, 28

This three-lesson class will show you how to use key features of Microsoft's Excel worksheet program, progressing from basics like creating and managing spreadsheets with simple rows and columns to shortcuts that make the program easier to use and features for developing powerful and attractive worksheets that can do more for you. We'll emphasize the practical uses of Excel in a household or office setting and provide exercises you can work on in class and at home to build your skill and confidence. The class is designed for those who are entirely new to spreadsheets, those who have started to use Excel but want to master more of its capabilities, and those who want to migrate from another spreadsheet program.

The Internet

Docs

GOOGLE DOCS: BEGINNERS

2 sessions of 2 1/2 hours Cost: $25.00

HUNTINGTON – Wednesdays from 9:30 AM – 12:00 PM on April 29, May 6

Google provides a complete suite of FREE Apps for word processing, spreadsheets, email, calendars and more. This class will teach you the basics of the Google Docs word processor to create and format documents. Write a letter, create minutes from a meeting, produce a newsletter; it's all possible using Google Docs.

GOOGLE FORMS: BEGINNERS

1 session of 2 1/2 hours Cost: $15.00

HUNTINGTON – Wednesday from 1:00 PM – 3:30 PM on June 17

Google Forms is a hands-on introductory class designed to help confidently create and manage online forms using Google Forms. Participants learn how to build surveys, class registrations, and RSVP forms; add and organize questions; customize appearance; collect and review responses; and connect results to Google Sheets for simple record-keeping. The class emphasizes step-by-step instruction, guided practice, and practical applications relevant to community groups, clubs, and personal use, ensuring students are able to create, share, and manage their own forms.

APPLE'S ICLOUD: AN INTRODUCTION

2 sessions of 2 1/2 hours Cost: $25.00
HUNTINGTON – Wednesdays from 1:00 – 3:30 PM on June 3,10

What is this mysterious iCloud — what does it do and how does it help me? Do you have too many photos on your device? Learn how to download them to free up space and save your precious memories. iCloud securely stores your photos, videos, documents, music, apps, and more — and keeps them updated across all your devices. It lets you easily share photos, calendars, locations, and more with friends and family.

Learn how using iCloud seamlessly shares information between Apple devices, i.e., iPhone, iPad, and Mac. You can even use iCloud to help you find your device if you lose it. All will be answered in this class about storage, backing up, and sharing between devices.

Mobile Devices

IPHONE: AN INTRODUCTION
4 sessions of 2 1/2 hours Cost: $45.00
HUNTINGTON LAB: Wednesdays from 1:00 PM - 3:30 PM on May 6, 13, 20, 27

Starting from scratch or taking this class as a refresher you'll gain confidence using your iPhone. Basic subjects covered are communicating with others using the phone, email, and text messages, and using Safari (Apple's internet browser). Building on this, we will cover using voicemail and contacts (the address book), as well as downloading and organizing apps. Learn how the new Passwords App can help you save and create passwords.

Additional subjects covered are the Camera and Photo Apps; Siri (let your iPhone do the typing and some of the work); Maps (get directions); and the Calendar. The class finishes with an introduction to Apple's iCloud, Find My and the Health App. Learn about the synergies between apps to make you more productive in your everyday life. This four-lesson class expands your knowledge of the iPhone and will make you feel like a Pro. In short, this class will give you confidence in using this incredible device.

Students are encouraged to bring their iPhone to class.

APPLE WATCH: WHAT YOU WANT TO KNOW

1 session of 2 1/2 hours Cost: $15.00

HUNTINGTON – Thursday, from 10:00 – 12:00 Noon April 23

Since 2015, when the Apple Watch arrived, it has been gaining more and more functionality, which means more and more to learn about using it to its full potential. First and foremost, let SeniorNet show you what the Apple Watch can do to help you with emergencies in your everyday life: it can monitor your heart rate and alert you to a problem, detect falls and car crashes, and then automatically call for help. Your Apple Watch can be your phone as well. You can answer and make phone calls without having your phone ring and disturb others and read and send text messages. It functions as a fitness tracker and even alerts you when it's time to stand up and move around for a few minutes. Join the SeniorNet Apple Watch class to explore this amazing "wearable device" and learn more about it and what it can do for you.

IPAD: GETTING STARTED

2 session of 2 hours Cost: $25.00

YAPHANK: Tuesdays from 10:30 AM - 12:30 PM on May 5, 12

You'll learn about iPad settings and navigation, displays, home screen and dock settings, sounds and haptics, iCloud, contacts, sending and receiving emails, managing your emails, messaging (texting), saving photos from a text or an email to your Photos app, texting or emailing photos, using the iPad native apps and more. We'll spend some class time reviewing Passwords, Passcodes and Passkeys: in other words … device security.

ANDROID PHONE

4 sessions of 2 1/2 hours Cost: $45.00

HUNTINGTON LAB: Tuesdays from 1:00 PM - 3:30 PM on May 19, 26, Jun 2, 9

In this class, you will learn about settings, camera, email, web browsing, calendar, music and apps on your Android device. You will also learn how to customize your device, send texts, organize your pictures and much more. All these tools and functions will help you make the most of your phone.

Students are encouraged to bring their Android phone to class.

Media

SMARTPHONE PHOTOGRAPHY

3 sessions of 2 1/2 hours Cost: $35.00

HUNTINGTON LAB: Thursdays from 1:00 PM - 3:30 PM on May 21, 28, June 4

Photography can add so much to our lives by recording and sharing special events, places, family and friends, and most importantly, our cherished memories. It can also be a wonderful hobby, as it gets us out and about, keeps us busy and creative, and enables us to continue to learn, grow, and enjoy life.

Join us for this three-lesson class, to learn about some of the most popular types of photography (Portraiture, Candid, Landscape, Nature, Travel, etc.), best practices to improve your photography skills, tips and techniques to enhance the quality of your photos, and photo editing to adjust and enhance your most important photos.

Prerequisite: Ability to take photos with your iPhone or Android phone.

Perhaps you haven't had time for a full class and just want to solve one technical problem.

We offer personalized problem solving for smartphones, tablets, laptops, and desktop computers (Mac, Chromebook and PC). Just let us know what you want to learn and we'll match you with an experienced teacher. **You coordinate the day and time with the instructor.**

Available at Huntington, Bay Shore, Blue Point and Yaphank

Cost: $20 for each hour!

Upcoming Free Zoom Events:

- **Researching Trusted Online Medical Information – Thursday – April 16 – 2:00 PM**
- **IPhone: It's Amazing – Tuesday -April 21 – 2:00 PM**

- **Smartphone Photography – April 30 – 2:00 PM**

- **Android Phone: Getting Started – Tuesday, May 5 – 2:00 PM**
- **Google More Than A Search Engine – Tuesday, June 18 – 2:00 PM**

To attend any of the above, go to our website, www.seniornetli.org and under Current Courses, click on webinars and seminars and register for the event of your choice.
