MY SAFY TEAM

Caitlin Johnson - Foster Parent Recruiter - she/her
Former SAFY foster parent for 2 years before joining the team. Firmly believes that the whole Clark County community can contribute to the success of our foster youth. She coordinates events for foster families as well as events for the local community to volunteer. She helps individuals and families take the first step in becoming licensed and guides them through the process.

Alisha McIntosh - Licensing Department Assistant - she/her
Alisha is here to help in any way! But specifically with paperwork, training and licensing questions. Having been at SAFY for 6 years she is very knowledgeable or often knows where to find the answer. Her favorite thing about SAFY is the positive atmosphere and everyone cares about youth and the community. She is also the leader of our orientations. These one-on-one orientations allow you to get your most detailed questions answered!

Stephanie Pearson - Family Development Specialist - she/her
Stephanie has been with SAFY for a couple years now. She runs the initial trainings that new foster families take as well as aiding in ongoing compliance. She has continued to stay engaged with families through the pandemic and kept trainings on schedule when switching to a virtual platform. She and Kate work hand in hand as a team to ensure everyone understands and follows the rules, as well as anjoying their time as a foster parents!

Katherine Rushton - Kate - Family Development Specialist - she/her
Kate has held many positions at SAFY. Her move into the licensing department has been very exciting for us all! We're excited for her to get started with families in their very first steps and continuing to work with them throughout their foster care journey. She willl soon be leading some of the initial foster parent trainings and once you are licensed she will help partner with you to keep your home in compliance with the local and state rules and regulations.

Gillian Ezell - Intake Coordinator - she/her
She has her bachelor's degree in sociology and has been with SAFY since 2019. Gillian works to place foster youth with our treatment families, attempting to ensure that the youth will find stability in the home based off of the supports and strengths of the treatment parents. She is in communication with DFS and our families, working to make sure the transition of the child into the treatment home is as easy as possible for both the child and the family. Gillian loves when she can find the perfect "fit" for a kiddo in care and see that child feel safe and supported by the treatment family. For self-care, Gillian loves spending time with her dog, going on runs and spending time shopping.
