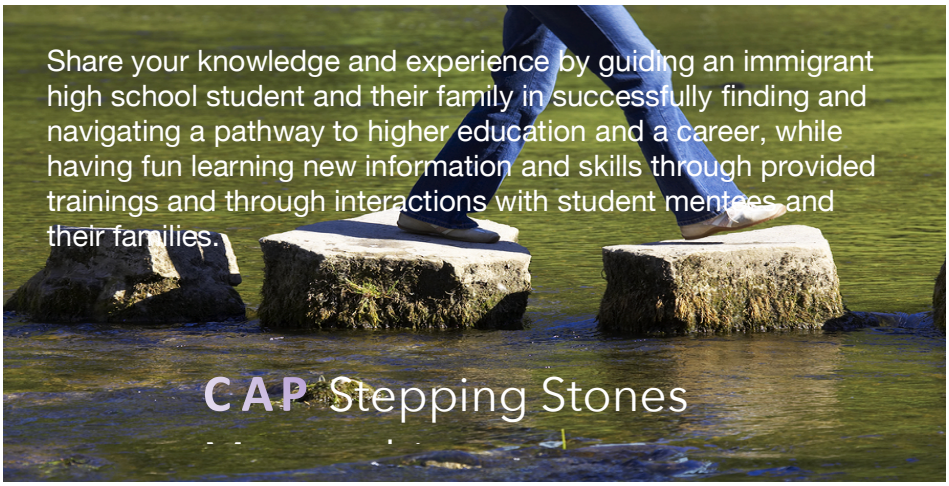
Make A Difference In A Young Person's Life



The Communication Ambassadors Partnership (CAP) is seeking mentors who will support immigrant high school students as they navigate planning for after graduation. Beginning with the 2022-23 school year, mentors will participate in social events and activities to build relationships and trust with mentees and their families. Ongoing one-on-one contact with a carefully selected mentee and their family will be developed to support them as they:

- reflect on dreams and ambitions and explore ways to realize them.
- research colleges and/or training opportunities.
- complete school and scholarship applications.
- hone interview skills.
- explore opportunities.
- succeed in their transition to higher education.

Responsibilities:

- Once vetted, mentors will need to make a 1 to 2-year commitment of approximately 100 hours per school year.
- Attend 8 hours of training on communication, cultural sensitivity, vocational and educational selection, scholarship application process and more.
- Attend follow up sessions or supervisory meetings.
- Have weekly contact with mentees.
- At critical points a mentor may spend up to 4 to 8 hours per week helping a mentee

Bilingual applicants are encouraged to apply. However, bilingualism is not a necessity, interpreters will be available as needed. Mentor interviews will begin in September 2022
