What's Advocacy Day? It is an annual event where the bishops and diocesan, ministry and advocacy leaders spend the day at the General Assembly meeting with elected representatives from across the state. As always, the focus of the meetings will be on advocacy issues as witness to deeply held faith values within the Episcopal tradition and our own diocesan priorities and building relationships with those who might hold different priorities.

This marks the third year the Advocacy Day Postcard Campaign will be part of the event. The goal is to give every person who wants to add their voice to those attending Advocacy Day the chance to do so. Elected representatives who have received your notes over the last two years have told us your voices matter, and it means a great deal to receive handwritten, personal messages from their constituents.
