Invitation from the Green Team

Join Us for the League of Women Voter's 2026 Environment Committee Timely Topics Event –

"*Water, Water Everywhere*"

- **Date:** Thursday, April 23, 2026, 12:00 - 1:30pm
- **Location:** Highland United Methodist Church, Bradley Hall, 1901 Ridge Road
    - Feel free to bring your bag lunch. Snacks will be provided.
- **Content:** Water in Wake County, with regard both to quality and quantity
    - Key questions our speakers might address:
        - How safe is our drinking water—and how does it get that way? What threatens that safety, and what measures are in place to protect it?
        - How long will it take before the demand for water in Wake County exceeds the supply?
        - What new demands on supply (e.g., data processing centers) do planners need to take into account?
        - What additional water sources (if any) are being considered?
        - How might we persuade municipalities to institute water-saving practices before we run out?
        - What environmental practices can Wake County adopt to better protect our water supply?
        - What lifestyle changes can each of us make that will help to protect our water supply?
- **Speakers:**
    - Lauren Daniel: DEQ, Division of Water Resources Water Education Programs
    - Kelsey Sosa: NCSU, Team Lead, Agriculture & Natural Resources, Water Quality
    - Mitch Woodward: NCSU, Area Specialized Agent, Watersheds and Water Quality
