PVSC’s New MaineCF Grant & Summer Extravaganza

Penobscot Valley Senior College (PVSC) is thrilled to announce the award of a 2026 Community Building grant from the Penobscot Valley Health Association Fund of the Maine Community Foundation (MaineCF). This flexible, general-purpose grant will support several key initiatives allowing PVSC to conduct a market research survey, to expand its recruitment outreach to underserved community groups, and to upgrade needed office and technology equipment.

We, the Board of Directors, are grateful to MaineCF for its recognition and support. The Board is committed to using this award to grow our membership numbers and to enhance our educational and socialization experiences. PVSC believes that it can uphold Maine Community Foundation’s mission of building a better Maine through community outreach, lifelong learning, and socialization for people 50 years and older.

PVSC is a 501(c)(3) non-profit that has the good fortune of receiving the support of the University of Maine Augusta-Bangor, which generously provides classroom and meeting spaces on its campus. Among MSCN senior colleges statewide, PVSC is a mid-sized program as compared with other MSCN senior-colleges, falling close to the median in membership numbers. Despite our small size, the members who attend lectures, courses, and field trips are highly supportive with many attending multiple events over the year and dynamic in providing guidance for topics and events.

July opens our lively 2026 Summer Extravaganza Course, continuing through September 1, which provides a potpourri of Tuesday lectures, and Thursdays include separate individual field trips. Each event presents a different topic so you can register selectively, even mid-session. Go to the PVSC website to join us for some engrossing talks, learning, and fun!
