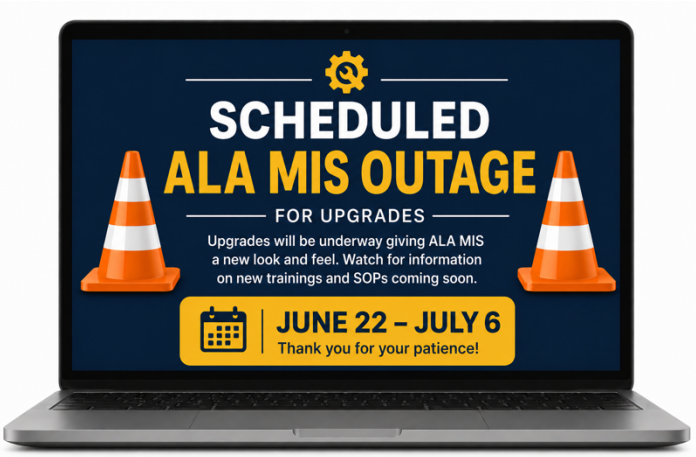
Notice of Scheduled System Outage: ALA MIS



Please note that ALA MIS will be down starting at 11:00am CDT on June 22, 2026. The system will be down until July 6, 2026. National ALA is doing a major upgrade to ALA MIS to improve functionality, appearance and feel.

How will this upgrade impact members?

- During this time, membership processing, reports, or payment of dues will not be available. This means that if members call National Headquarters, we will be unable to take membership payments, make changes to records, or provide information as the system will be down for staff as well.
- Changes to the MyAuxiliary portal for our members will be minimal.
- ALAMIS users will see a new, more intuitive interface when they log in.

Preparation recommendations:

- We are encouraging units to go into ALAMIS now to handle any member processing with dues, address changes, etc., OR have all transmittals received in the Department Office by June 15th for processing, because the system will be down June 22 to July 6. Anything received after June 15th cannot be guaranteed to be processed before the system is taken offline.

What's different?

- You'll notice a sleeker, simpler navigation menu option.
- No electronic signature verification pages to complete processes.
- Joining new members and paying membership dues will still be multi-step processes, but in a different format.
- Reports are more organized.

Training — date of availability coming soon!

- New training manuals are currently being developed.
- New how-to videos and courses: We will notify you when they become available.

The deadline for 100% reporting was originally July 4th, however, with the scheduled outage, the deadline has been extended to July 20th! Let's keep working membership to reach our goals.

Other items to note: ALA member portal, ALA academy, and donations will also be shut down during this time.

Should you have additional questions, please contact alamishelp@ALAforVeterans.org.
