The third session of the SW Small Church Clarity process met on October 28 at Royal Redeemer Lutheran Church in Liberty Township, Ohio.

The Ministry Planning process continued with the formal creation of a ministry plan. This starts the ministry off with a minimum of a year of program planning in place. Part of the process was to look back at session one and to process barriers and challenges and create strategic steps to overcome them within the one year plan and beyond.

Additionally, besides pizza, LCEF supplied Demographic studies for each congregation's immediate area to better hone the focus of their ministries.

Next session, we will walk through operational and ministry budget theories. This will result in group work processing your current budget and develop a plan of action for the coming year toward each congregation's vision and goals.
