NAVIGATING POSSIBILITOPIA

What is it?

An evening opportunity for parents to learn from other parents about supporting young adults receiving a certificate of attendance at age 21. We will provide a structured panel session discussing transition topics followed by work sessions to digest the Transition Planning Guide, complete necessary parent paperwork, and provide a chance for parents to network with each other. BCPS Resource teachers and transition facilitators will be available during each event for assistance.

Come prepared with questions for the parent panel and any DORS or DDA paperwork you might want help with.
