In Person

Tentative Agenda:

Updates on the CPC Program

CPC Liaisons and ScreenNJ: Introductions, Roles, and Updates

DEI presentation

Examples using Rutgers clinical informatics resources for cancer research

Annual CPC Service Awards Ceremony

Digital Poster Presentations

Please participate in our CPC Members Research Updates. Based on member feedback and to enhance networking and CPC member interaction, we have decided to have another in-person **digital poster session** from 3-4:15 pm, with one digital screen for each poster, as we did in last year's retreat. If you are interested in having a digital poster at the meeting of current or planned research, please send us a brief abstract by Friday, September 27, 2024. We will compile all abstracts to share with retreat participants and will select the top abstracts representing the various research areas of our program for digital posters. Priority will be given to research involving inter-programmatic and intra-programmatic collaborations and collaborations with Princeton University faculty. We are looking forward to reading your abstracts and will accommodate as many presentations as possible. We will notify you by October 7, 2024 if your abstract is selected for a digital poster presentation. The poster sessions will be organized and moderated by Drs. Karen Ra and Tengteng Wang.

Please **submit your abstract by Sept 27** to cpc_program@cinj.rutgers.edu.

Include the following in the body of the email.

- Presenter's Name
- Email of Presenter
- Professional Title of Presenter
- Department/School/Institute of Presenter
- Research program affiliation of presenter (e.g., CPC)
- Abstract title

We are looking forward to your participation and input during the 2024 CPC Annual Retreat!
