**John C. Molina, JD '89** is Founding Partner of Pacific6 Enterprises, an organization that seeks to match financial with social capital. Founded in 2017 with five other long-time associates, Pacific6 has a wide variety of investments, including the restoration of an historic hotel in Long Beach, development of an aquafarm outside of San Diego and a music and cultural music festival.

Prior to helping found Pacific6, Molina served as CFO at Molina Healthcare, Inc., a Fortune 150 company. During Molina's tenure as CFO, the company grew from a small, privately held family business to a publicly traded national healthcare company. During that time, company's footprint has expanded from operations in four states to thirty-five states and the Commonwealth of Puerto Rico, employing over

20,000 people.

Molina has served on the Board of Directors of the Los Angeles Branch of the Federal Reserve Bank. He is a member of the Board of Directors of the Aquarium of the Pacific and has served as its Chairman for four years. He has also a member of the Board of Directors for the Long Beach Convention and Visitors Bureau and the Charitable Foundation of the California State University System. In 2016, Molina was named Businessman of the Year by the United States Hispanic Chamber of Commerce.

Molina received his bachelor's degree in economics from California State University, Long Beach, where he was elected to the Phi Beta Kappa Academic Honor Society. He also earned a Juris Doctorate from the University of Southern California.

Partners continues to serve as a catalyst for shaping a new vision of health care by partnering with organizations, families, and community leaders in the work of changing health care systems, communities and lives. Partners in Care is now building prototype regional community delivery systems for the new health environment, developing strong partnerships between medicine, home and community based services and those who draw on the health and community systems of care. Partners also works to scale these innovations through shared learning systems at the national level.
