

# DESIGN IMPACTS LIVES

The background of the poster features a dynamic, abstract design composed of thick, flowing lines in shades of red, black, and white. These lines create a sense of depth and movement, resembling architectural structures or organic forms. The overall aesthetic is modern and energetic, reflecting the theme of design and impact.

The ASID Alabama  
Annual State Conference

September 8th & 9th  
Sheraton Birmingham

# AGENDA

## Friday September 8th

8:00 AM	Registration & Continental Breakfast	
9:00 AM	CEU - 1 ADA-Compliant Plumbing Products for Accessible Kitchens and Baths	Exhibitor Booths
9:30 AM		CEU - 2 LED - Ten Myths Busted
10:00 AM	Exhibitor Booths	
10:30 AM	CEU - 3 LEED v4: Product Declarations, Emissions, and Impact on Paint & Coatings	Exhibitor Booths
11:00 AM		CEU - 4 Luxury Kitchen Ventilation, Healthy Indoor Air With Style
11:30 AM	Exhibitor Booths	
12:00 PM	Luncheon Keynote Speaker—Collier Neeley, National Register Coordinator Alabama Historical Comission	
1:00 PM	Exhibitor Booths	
2:00 PM	CEU - 5 Digital Human Centric Lighting	CEU - 6 Flooring: The Next Generation - Ultracompact Surfacing
3:00 PM	Break	
3:15 PM	CEU - 7 Advanced Ceramic Tile Methods, Standards and Materials	CEU - 8 Decorative Glass for the Interior Environment
6:30 PM	The Annual Awards Banquet	

## Saturday September 9th

8:00 AM	Registration
8:30 AM	CEU - 9 EO 13693-Planning for Federal Sustainability in the Next Decade: Best-of-Industry Flooring Solutions
9:30 AM	Break
9:45 AM	CEU - 10 Transparency in Sustainability
10:45 AM	Break
11:00 AM	CEU - 11 Designing Memory Care Facilities

# Friday September 8th

## ***ADA-Compliant Plumbing Products for Accessible Kitchens and Baths***

CEU **1**

**C/S**

**9:00 AM**

IDCEC #105508 | Delta

Learn about the history of the Americans with Disabilities Act (ADA) and how the 2010 ADA Standards for Accessible Design apply to plumbing products. Explore how universal design principles make kitchens and baths more accessible for all people to use, including the aging and disabled. This presentation will also provide detail on emerging plumbing technologies that improve accessibility and capitalize on new designs to accommodate this segment.

## ***LED - Ten Myths Busted***

IDCEC #106135 | Kichler

CEU **2**

**9:30 AM**

LED lighting is no longer new, but common misconceptions remain. This session will review ten of the most popular misunderstandings of LED Lighting, explain the flaw in thought and then share how a user can turn them from a negative to a positive aspect of lighting design. FCC and warranties related to LED will also be discussed.

## ***LEED v4: Product Declarations, Emissions, and Impact on Paint & Coatings***

CEU **3**

**C/S**

**10:30**

**AM**

IDCEC #105776 | Sherwin-Williams

Even if you have designed and certified many buildings under LEED 09 NC, you may be wondering what impact LEED v4 BD+C will have on selecting paints and coatings under the new guidelines. This course will help you navigate several of the changes, including new point calculations, categories and market sectors. Additionally, you will learn how to identify products which have undergone third-party certification and testing for TVOC content, emissions and the impact of building materials. You will also learn about advancements in coating technologies that allow for VOC compliance as well as performance benefits for the owner.

## ***Luxury Kitchen Ventilation, Healthy Indoor Air With Style***

IDCEC #105926 | Sub-Zero Wolfe

CEU **4**

**11:00**

**AM**

This course discusses the impacts of cooking on indoor air quality, and how those negative impacts can be lessened by proper ventilation. We'll discuss what to look for in specifying a ventilation system, and how to specify the best system for the situation. And then finally, we'll take a look at the design options available. The latter topic, the design factor, is sometimes the only thing considered. In this course, it's the final issue we look at.

## ***Digital Human Centric Lighting***

IDCEC #102863 | Acuity

CEU **5**

**2:00 PM**

This presentation is an introduction to Human Centric Lighting, to optimize design aesthetics, increase productivity, and improve the health and well-being of humans in an architectural environment.

***Flooring: The Next Generation - Ultracompact Surfacing***

CEU **6**

**2:00 PM**

AIA Course | Cosentino North America

In this course, we explore a cutting edge technology, called Ultracompact Surfacing. The audience will gain insight into how this surfacing material possesses similar characteristics of natural stone while providing superior durability compared to porcelain and universal design flexibility.

***Advanced Ceramic Tile Methods, Standards and Materials***

IDCEC #104545 | American Olean

CEU **7**

**3:15 PM**

Provides solid foundation of all aspect of ceramic tile and installation materials for high quality visually and thermally comfortable and energy efficient buildings. Explains complexity of using ceramic tile as suitable flooring source in buildings and demonstrates design strategies for a multitude of space types by graphically analyzing several examples of installation and product composition. ANSI and TCNA criteria are reviewed and their relationships are explained. Installation methods are reviewed and case studies are used to demonstrate these methods on real buildings from schematic design to post occupancy.

***Decorative Glass for the Interior Environment***

IDCEC #104604 | Clarus Glassboards

CEU **8**

**3:15 PM**

In virtually every building, they are opportunities to create the overall look and feel of a space using glass. Beyond the aesthetic, the performance of these glass surfaces over time is critically important to the users and owners of the building. Decorative Glass for the Interior Environment will explore the different types of glass common in the interior space and their impact on safety. Additionally, the course will explore the differences between the various fabrication and finishing processes for different decorative glass applications. Finally, we will review how decorative glass can be specified for specific LEED criteria on a project.

**The 2017 ASID Alabama  
Annual Awards Banquet**

**Friday September 8th  
6:30 PM  
Sheraton Birmingham**

# Saturday September 9th

## ***EO 13693-Planning for Federal Sustainability in the Next Decade: Best-of-Industry Flooring Solutions***

CEU 9

C/S

8:30 AM

IDCEC #104780 | Tarkett

In March 2015, the President signed and published EO 13693 adding more strident sustainability requirements. EO 13693 is complex and establishes aggressive performance goals that not only impact the Departments and Agencies of the Executive Branch but the Federal Supply Chain as well. This CEU examines EO 13693 mandates and performance goals and maps them to Best-of-Industry Flooring Solutions.

## ***Transparency in Sustainability***

IDCEC #103381 | Tarkett

CEU 10

C/S

9:45 AM

Certification programs are establishing themselves as the tools to verify the sustainable nature of a product and substantiate the green performance claims made in the promotional materials. As specification audiences become increasingly interested in evaluating products based on their holistic impact on the environment or to the health and well-being of building occupants, new formats for disclosure are emerging that reveal the manufacturing processes, environmental impact, product contents and their associated health hazards, improving product transparency and equipping specifiers to make more informed product selections.

## ***Designing Memory Care Facilities***

IDCEC #103671 | Tarkett

CEU 11

11:00 AM

One of the newest applications where the impact of design is still being realized is in long-term care facilities designed specifically to accommodate people living with Alzheimer's disease and dementia. This course will share some best practices for successfully designing these highly specialized interior spaces, as well as a few items to avoid or carefully consider. More specifically, it will explore how the selection of interior colors, use of lighting, incorporation of daylight, and specification of flooring can help create an environment that promotes calm behavior and comfort, encourages healthy socialization, and safe ambulation.

## **ENROLLMENT**

There are 2 ways to enroll!!!!

### I. Enroll Online!

For quick and easy enrollment, click the appropriate link below:

- [ASID Professional and Allied Member](#)
- [Non-member Professionals and Practitioners](#)
- [Students](#)

### II. Use the Mail-In form. To enroll via USPS and personal check, you can use the Enrollment Form, and return to the address indicated.

## **HOTEL** Sheraton Birmingham - 2101 Richard Arrington Jr Blvd N, Birmingham, AL

Make your reservations by clicking [\*\*HERE\*\*](#)

... OR go to [www.starwoodmeeting.com/Book/ASID](http://www.starwoodmeeting.com/Book/ASID)

Please mail completed form and check,  
made payable to ASID Alabama, to:

**ASID Alabama**  
**P.O. Box 220**  
**Moody, AL 35004**

# ASID Alabama

### SCHEDULE and PRICING (add \$10.00 to each fee if paying at the door / not pre-registered)

**CEU's** Check each course you will be attending. All courses are 1 Hour

Friday September 8th

Saturday September 9th

**9:00 AM / CEU - 1**

ADA-Compliant Plumbing Products for Accessible Kitchens and Baths

**10:30 AM / CEU - 3**

LEED v4: Product Declarations, Emissions, and Impact on Paint & Coatings

**2:00 PM / CEU - 5**

Digital Human Centric Lighting

**3:15 PM / CEU - 7**

Advanced Ceramic Tile Methods, Standards and Materials

**9:30 AM / CEU - 2**

**11:00 / CEU - 4**

Luxury Kitchen Ventilation, Healthy Indoor Air With Style

**2:00 PM / CEU - 6**

Flooring: The Next Generation - Ultracompact Surfacing

**3:15 PM / CEU - 8**

Decorative Glass for the Interior Environment

**8:30 AM / CEU - 9**

Planning for Federal Sustainability in the Next Decade

**9:45 AM / CEU - 10**

**11:00 AM / CEU - 11**

Designing Memory Care Facilities

**TOTAL # OF HOURS:** \_\_\_\_\_

		MEMBERS	NON-MEMBERS	TOTALS
<b>REGISTRATION FEE:</b> Required for practitioners attending one or more CEU's		\$25	\$35	
<b>STUDENT FEE:</b> Students pay only this fee. You <u>must</u> indicate any courses you are planning to attend above.		\$25	\$30
