For our Master Gardener Home Garden Tour

The Pima Master Gardeners have selected four of their members' gorgeous home gardens to open to the public for their 18th Annual Home Garden Tour. These four westside Tucson mountain home gardens display a wonderful array of gardening choices. Stroll contemplative labyrinths at one, inhale breathtaking views at another, buzz among the bees in a wildflower garden at a third, or enter a tropical enclosure of exotic orchids at a fourth.....all while learning important information on topics such as harvesting our precious rainwater or the essential importance of pollinators in our gardens.

Tickets go on sale February 15, 2017. Check back for information and **SAVE THE DATE!**
