The Federated Church of Orleans'

CARE for CREATION TEAM's

SUSTAINABILITY

FILM & DISCUSSION SERIES

SATURDAYS at 10:00 AM -- All Welcome!

Sat. **Feb. 22** - Film: **'Tapped'** examines the role of the bottled water industry and its effects on our health, climate change, pollution and our reliance on oil.

Sat. **March 21** - Film: **'A Concerned Citizen - Civics in Action'** documents the work of Dr. Riki Ott, toxicologist and environmental activist. This is a clarion call for people to get savvy and reclaim democracy by speaking out.

Sat. **April 25** - Speaker: **Rand Burkert,** who is a practitioner of Permaculture and Restoration Agriculture and a core member of Food Forest Initiative of Cape Cod, whose mission is "To strengthen Cape Cod's biodiversity and food security through edible public plantings and educational actions." Restoration agriculture could restore our birthright of communal work on the land and develop more robust opportunities for local farming. Projects of FFI have included teaching gardens at Lighthouse Charter School and Nauset High School (in collaboration with Orleans Farmers Market); a demonstration Forest Garden at Long Pasture Audubon Wildlife Sanctuary, and a community project to model restoration agriculture with biodiverse plantings for the Harwich Water Department's power lines Right-of-Way. Rand will talk about joyful group process, experimentation with genetic diversity, seed saving, and carbon sequestration, with potential applications to any outdoor space in Cape Cod.

Join us these Saturday mornings at 10 am for coffee, nibbles & discussion!
