We live in a world enriched by the **diversity** of the people that live in it, and in a time that allows us to grasp and experience such fortunes.

**Friendly Exchange** would like to offer your family the opportunity to experience **GUATEMALA** in your own **home**.

For 11 weeks, you could host a **Guatemalan STUDENT**, the same age as your child, as a member of your family; which means he will join in your **daily activities and go to school**. Through him, you can learn about a new country and culture, while you **experience firsthand** the beauty of diversity as seen from a child's eyes. They also have a good command of the language and bring their own money.

The group arrives **September 22<sup>nd</sup>** and returns **December 9<sup>th</sup>**. If you would like to know more, contact us to find out the location and time of the next **meeting** near your area or if you prefer a **personal visit** at a convenient time.
