

## Night Without a Home Awareness Sleep Out

All youth, 6th through 8th grade, are encouraged to experience a “Night Without a Home.” To raise awareness of and empathy for those less fortunate, we set aside our warm homes for a spot on the sidewalk.

We will be creating Tie Blankets to help formally homeless families settle into their new home. AND we ask that you bring a new or gently used book for families at \*People Serving People.

\*People Serving People helps homeless and at-risk children and their families manage crisis situations and build a strong foundation for their long-term success.

Please contact Lori Hinker if you have any questions.
