

## First Sensor AG

First Sensor AG is one of the world's leading sensor systems suppliers. Our company develops and manufactures standardized sensors as well as customized sensor solutions for the growing markets in the Industrial, Medical and Mobility segments.

Based on proven-and-tested technology platforms, we develop products such as IC's, components, sensors, and entire sensor systems. These products give our customers a real competitive advantage. They appreciate the opportunity to make individual adjustments at every stage of the value chain in order to create exceptionally powerful sensors and sensor systems with tailored features. This joint development work frequently forms the basis for long-lasting and intensive partnerships.

**Advantages:**

- Specialist for optical and MEMS- based sensor applications and microsystems
- Production by using specialized Technologies (advanced packaging)
- Production facilities support mass production in cleanroom classes of ISO 8 to 5

The managing director, Mr Sandro Pampel, will be representing First Sensor in the Cool Silicon Cluster business delegation that will visit Toronto and Ottawa from October 23-27, 2017.
