

## SYSTEMA GmbH

Our team of manufacturing automation business process consultants provides deep knowledge and expertise to blueprint, design, develop, and deliver shop-floor software automation for high-technology manufacturing.

Leveraging SYSTEMA's core products—including the EI Suite for SECS/GEM equipment automation and an extensive integration framework for MES systems and an Agile Software Development methodology we have successfully deployed over a thousand of equipment integration and automation solutions worldwide.

### Advantages:

- MES experts provide support and business process expertise to evaluation, stabilize and extend the capabilities of MES Systems ERP, MES, Equipment Integration and Automation
- Enabling clients to fully utilize these investments through proven SOA frameworks designed to automate complex manufacturing business processes
- Committed to delivering manufacturing excellence through software solutions

The Director of Sales, Ms Max Maxey, will be representing SYSTEMA in the Cool Silicon Cluster business delegation that will visit Toronto and Ottawa from October 23-27, 2017.
