The Newest Way to Support your Best Friend

Your pet is more than just a furry friend, they are part of the family. As pet parents we often go the extra mile to ensure our loved ones are living healthy, happy lives and providing them with natural supplements can be paramount in supporting that goal. As the popularity of CBD for people continues to climb, it is only natural that the following question arises, "What about CBD for pets?" That being said, as more and more CBD products become readily available, it is important to make sure that you are giving your best buddy CBD from a trusted and reliable source.

Just like us, our pets may experience their own set of ailments, such as, anxiety, joint and muscle aches. Medterra's CBD Pet Tinctures and Chews are both wonderful alternatives to incorporate high-quality CBD into your pet's daily routine. Flavored naturally, our tincture is available in: Beef, Chicken, or Unflavored and varies in strengths of: 150mg, 300mg, and 750mg of CBD. We recommend administering the tincture into your pet's food or water bowl daily, but the choice is always yours. For ease and convenience, we also suggest checking out our CBD Pet Soft Chews, which are peanut butter and bacon flavored for your pet's palate. Medterra's CBD Pet Joint Support Soft Chews, peanut butter flavored, contain Glucosamine and Chondroitin, which help give aid to those that tend to be walking a bit slower these days. For those that tend to be anxious or have high-energy, we encourage you to try our CBD Pet Calming Soft Chews, bacon flavored, which contains natural calming ingredients, such as Valerian Root.

As these CBD products for pets begin to hit the market, it is important to keep in mind that not all CBD is created equal. At Medterra, we proudly produce our hemp-derived CBD pet products with the same high-quality standard that all our customers have come to love. We believe that our two and four legged customers deserve the best and we stand by that wholeheartedly. All of our products are made in the United States, and you can count on our products to be THC-free. Our entire line of premium CBD pet products can be purchased on our website at www.medterracbd.com and you can also locate a store near you by using our Store Locator on the Medterra website. Whether you have toes or paws, Medterra is here for you!
