
Say "YES" to Mental Health!

On November 3, 2026, our community will vote on a binding referendum to decide whether to expand mental health services in Edgewater, Lincoln Square, and Uptown through a 0.025% property tax increase.

What will these funds do?

- Establish a new community mental health center that is **publicly funded** and provides direct care to any resident in need, **regardless of ability to pay.**
- **Restore key services**—including school outreach, veteran support, prevention programs, and family counseling.
- By law, all funds will **remain in our community** and can only be used for mental health services, creating a **sustainable income** for our program.
- A local Governing Commission of community residents will oversee how every dollar is spent.

Please join us at our next Community Action Team Meeting. We will update our progress and then develop strategies to educate and empower our neighbors to pass the Mid-Northside Expanded Mental Health Services Program!

WHEN: Thursday, July 23rd

WHERE: All Saints Episcopal Church Parish Hall, 4550 N. Hermitage Ave. (Hall entrance is on Wilson Ave.)

WHAT TIME: 6:00-7:30 pm

Together, let's make new mental health services a reality for our neighbors in need!
