

I am very excited to begin my term serving the citizens of Miami Township in 2018. I look forward to working with my fellow Trustees, Don Culp and Doug Barry. Together, we will bring transparency and fiscal responsibility to our local government. I look forward to using my leadership experience to build a new strategic vision which all stakeholders (internal and external) will come to fully understand and embrace.

Miami Township is an incredible place to live and work; but we do not have unlimited resources. What we do have should be concentrated on Safety First (Police/Fire), then Services (Roads/Parks). To begin this process, I have already met with most of the Township department heads and begun to share my goals for Better Leadership and Better Services.

Soon, I will be meeting with leadership in Miamisburg so we can collaborate as much as possible, especially around shared services such as our outstanding fire department.

Change is sometimes feared and frequently difficult and can take time to implement; there are many existing plans and budgets already in place which are being inherited by the new group of trustees. I look forward to serving our citizens and doing all I can to better our neighborhoods for the next four years.

Thank you to the people for giving me this opportunity. If you have any questions or ideas for improvements, please call or text me at 937-367-8537.

- John Morris
