

Children's Ministry

Our church has a calling to deliver a children's program (birth through 5th grade) that provides a spiritual base for the children of our community. The first step towards designing an engaging program is for the church to articulate the desired mission and values of our Children's Ministry. Our goal is to build a consensus around what you think are the most important elements to be included, so that we can design a program around these priorities.

We have attached a link to a short (5 minutes, honest!) survey below to gain your thoughts. Your answers will be completely anonymous. The Children and Family Ministry Task Force also hosted a focus group session this past Sunday to gather your input. Over the next several weeks, there will be additional opportunities for in person feedback. We will then compile the information gathered from the survey and focus groups and use them to author the mission and values.

Thank you for your support! Your response to the survey **by May 20th** is greatly appreciated!
