Subject: New Asst. News Content Director

In the midst of our extensive storm coverage, I'm excited to share some great news with everyone!!

Candace McHan will join WALB as our new Assistant News Content Director on Monday, November 12th!

Candace is currently the morning Executive Producer at Fox 4 in Fort Myers, Florida, but she is from Moultrie and grew up watching WALB!

Candace comes with a slew of experience both in South Georgia and beyond! She has a Bachelor's degree in Mass Media from Valdosta State University and has worked at both WTXL and WCTV in Tallahassee, where she worked in the Valdosta bureau.

She's also worked at Fox 25 in Oklahoma City (where she did her fair share of breaking news and weather!), and WMAZ in Macon before heading to South Florida, where she has planned and executed big story coverage, including leading her team through Hurricane Irma for days out of a makeshift studio after her station was evacuated!

During her career, Candace has worked as a producer, MMJ, Special projects reporter, Assignment Manager, Digital Manager, and Executive Producer.

Many of you had the opportunity to meet and speak with Candace last week during her station visit.

She is a hard worker with great ideas and a lot of knowledge, and she is excited about coming home to Georgia!

We believe she will do a great job in this very important role and will be an excellent addition to the WALB Family!

Please welcome Candace when she joins us next month!
