

WNDU Team:

I am thrilled to announce Kate Glover will be joining our team as News Director on November 30th.

Kate has significant News Director and newsroom management experience along with an impressive track record of success.

Kate currently resides in her hometown of Buffalo, New York with her husband and two children where she was the News Director of WGRZ the NBC affiliate. Prior to her time in Buffalo she was News Director of KOIN-TV the CBS affiliate in Portland, Oregon (DMA #22). When she joined KOIN they were #3 in the market and within a year under Kate's leadership they became a clear #1.

She has routinely demonstrated the ability to implement news plans based on research and has a passion for teaching and coaching all newsroom positions.

Kate has also served as Director of News and Local Programming for Time Warner Cable for the Western United States Region. She gained Executive Producer experience at KNSD (NBC) in San Diego. She was News Director of KMIR (NBC) in Palm Springs as well as having significant experience as Assignment Manager and Field Producer throughout her career.

Kate is a graduate of The University of Texas at Austin.

Throughout my conversations with Kate she has repeatedly expressed her desire to make WNDU the clear market leader. Kate's energy, passion, experience and drive to win will be a great asset to all of us.

John
