LEADERSHIP OPPORTUNITIES FROM CAMP DAGGETT ADVENTURE CENTER

Are you looking for ways to foster leadership, collaboration and creativity among your team? Do you wish to encourage a strong understanding of the strengths and weaknesses that help shape your group members and team effort?

Pathfinder: An Exploration in Leadership may be the opportunity for you and your team!

People have a natural desire for exploration – to see what they might find down a road or path. It is our goal to harness that curiosity and present a thoughtful, interactive and engaging experience of self-discovery and reflection that provides each participant and/or group with a “road map” to their exploration of leadership. As we travel down this road together, it is our hope to better understand each team member’s personal “map” and/or leadership style and discover how our strengths and weaknesses impact our team direction and ultimately help guide us to where we want to go.

Please join us for a free, brown-bag information session on
