

**SENTRISmart™**  
Smart Lock + Smart Phone = Smart Choice

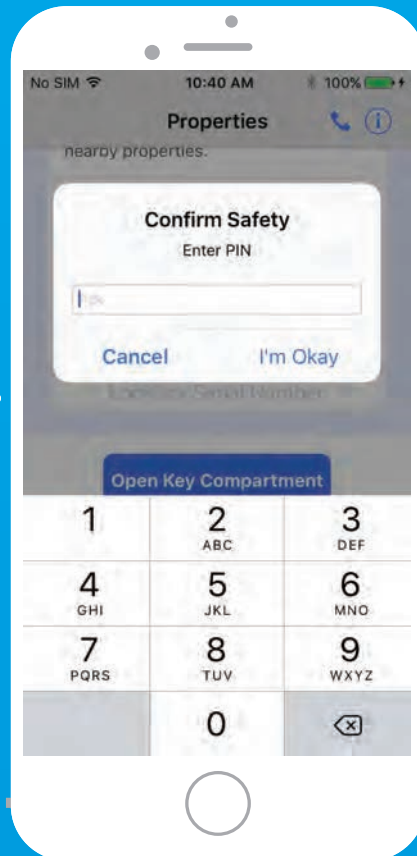

**AGENT SAFETY**

**SAFER  
TOGETHER**

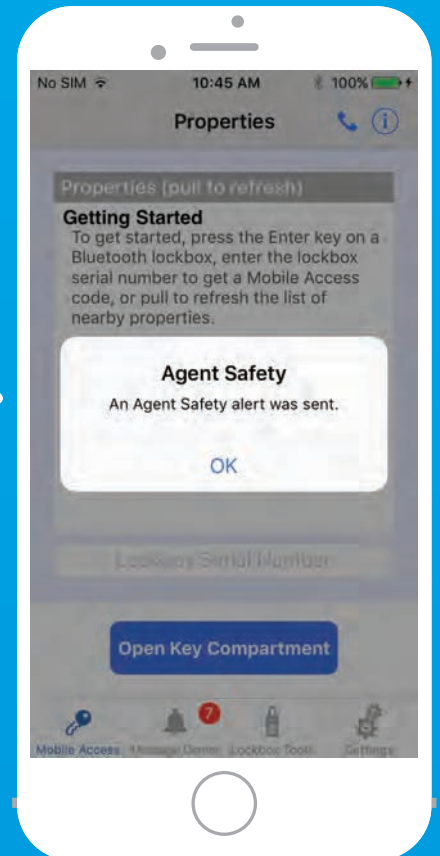

When using SentrySmart™ to open a lockbox, the Agent Safety Feature will launch. This feature will automatically alert your designated emergency contacts when you do not or cannot confirm you are safe.

For additional information on how to set up Agent Safety, visit [www.sentrilock.com/help/](http://www.sentrilock.com/help/) and click SentrySmart™.

### Agent Safety Feature in SentiSmart™

- Gives users a way to alert a designated contact if they are uncomfortable or not safe during a showing.
- User must set up and enable this feature through the **Settings** tab in SentiSmart™.
- Once the key compartment has been opened, the user will need to respond to checks at timed intervals.
- If a user is unable to respond to confirmation checks Agent Safety will send an auto alert to the emergency contact.
