

Why choose GBMP? for Shingo Institute Training

Shingo Recognition

- ✓ GBMP trainers are also **Shingo Prize Examiners**.
- ✓ All our trainers are also former Shingo Prize recipients in the **Shingo Research & Professional and Professional Publication Award** category.
- ✓ Two of our trainers have led Lean transformations at former **Shingo Prize for Manufacturing Excellence** recipients.
- ✓ One of our trainers is a former founding member of the **Shingo Executive Advisory Board**, and was elected in 2000 to **Shingo Prize Academy**.

Training Experience

- ✓ Since 1994 we have assisted over **1000 manufacturing and healthcare organizations** with their Lean transformations, including **3 Shingo Prize and 3 Shingo Medallion recipients**.
- ✓ GBMP Lean training videos & simulations are used around the world to reinforce & support enterprise excellence. Our **Toast Kaizen** DVD has been translated into 20 languages.
- ✓ Our trainers each have over **20 years of hands-on Lean consulting experience**.

Check out our website www.gbmp.org for upcoming public workshops or call us at 617-969-1396 to schedule your own workshop!

Schedule of Upcoming Shingo Institute Workshops by GBMP

**Bruce Hamilton, President GBMP, Member of
The Shingo Academy, Certified Shingo
Facilitator & Shingo Examiner**

Bruce Hamilton, known to many as “The Toast Guy” for GBMP’s [Toast Kaizen](#) DVD, brings hands-on experience to GBMP as a manager, teacher, and change agent. He has spoken internationally on Lean Manufacturing, employee involvement, continuous improvement and implementing change, and has contributed to numerous texts on reliable methods ranging from visual control to variety reduction. Prior to joining GBMP, Mr. Hamilton was General Manager of United Electric Controls Company, recipient of the coveted Shingo Prize for Excellence in Manufacturing. He led efforts at United Electric to transform its production from a traditional batch factory to a single piece flow environment that has become an international showcase. His expertise covers both the technical side of lean manufacturing and the equally important soft skills needed to engage and inspire employees and managers. He is a graduate of University of Arizona. Read Bruce's blog at www.oldleandude.org

**Mike Orzen, Lean IT Pioneer; Adjunct
Professor, Ohio State University Certified
Shingo Institute Facilitator**

With more than 20 years of coaching experience, Mike's career includes the successful application of Lean in many environments including manufacturing, service, IT, healthcare, supply chain logistics, banking, insurance, aerospace and food & beverage. Mike is also a faculty member of The Lean Enterprise Institute and The ThedaCare HealthCare Value Network, as well as a Shingo Prize Examiner and President of Mike Orzen & Associates. Mike served as plant manager of a medical implants facility, where he led a company-wide lean transformation, and is author of the award-winning book "Lean IT: Enabling & Sustaining Your Lean Enterprise".

**Larry Anderson, SME Lean GOLD Certified,
Shingo Prize Senior Examiner & Certified
Shingo Institute Facilitator, President of AME
Southwest Region**

Larry has over 40 years of manufacturing experience, and has been an examiner for the Shingo Prize since 1999. He brings both a strong management and manufacturing shop floor background to the GBMP team., and has extensive experience as a Lead Examiner for the Shingo Institute. Additionally he personally assisted two recent Shingo Institute Medallion recipients. A people-oriented leader with a bottom-line focus, Larry possesses exceptional motivational skills that come across both in the classroom and on the front line.

**Dan Fleming, Director of Consulting Services
for GBMP, Lean Silver Knowledge Certified,
Shingo Prize Recipient**

Dan has 30+ years of experience in operations & engineering including more than 25 years of hands-on experience learning, leading and teaching the principles and tools of the Toyota Production Systems and continuous improvement. He was the lead developer of GBMP's highly regarded Lean in Healthcare Certificate Course, the first of its kind comprehensive Lean program for health care practitioners. Dan has been an inspiring and informative speaker at regional, national and international conferences.
