

Why is lacrosse a great sport to try?

Lacrosse is the fastest game on two feet. Older than almost every other sport combined because it was invented by Native Americans thousands of years ago, this sport combines technical skill and finesse, endurance, perseverance, strength, and durability. It is fast paced and high scoring, great for an audience! It is a finesse sport that allows some contact. It teaches boys and girls the promise of determination and hard work, the joy of being in shape and healthy, and to respect the game, the opponents, and everything in between. It is the ultimate team sport and fosters many life lessons along the way.

It's always best to do the registration in one sitting. First, try logging completely out of the system and then go back in and try again. If that doesn't work, create a whole new entry and start from scratch. Finally, you can call the shop and we can attempt to walk your through the online registration process.
