Instructions for directed donation of cash, stock or other financial asset to St John Lutheran Church

For those who wish to make a directed donation of stock/mutual funds, retirement funds or other financial asset, please follow the guidelines below. Thank you so much for your gifts and support of St John Lutheran Church and our mission to be a sanctuary that welcomes and serves all!

1. Any gift that is cash or check can be made/sent directly to the church, payable to St John Lutheran Church. Please be sure to include the member/givers name with the gift.
2. ACH and Credit Card payments from your bank account to St John Lutheran Church can be processed online through our financial manager Vanco. Click on the link from the Church's home page (www.stjohn-elca.org) and follow the instructions. This can be used for one-time gifts or ongoing regular donations.
3. Cash Wire transfers from an investment or financial institution can be made directly into St John's Chase checking account. Contact the church office for bank account information.
4. Any stock, mutual fund or other security can be transferred directly into the church's Edward Jones account. Contact the church for the delivery instructions which your financial advisor/institution can use to electronically transfer the asset.

Please be sure to properly identify your donation either with the gift itself or notifying the church with the details. This includes your name, amount, where it's coming from and where it is to be directed (Current Fund, mortgage reduction, etc.). That way it can be properly credited to your giving statement.

Thank you again for your generosity. Feel free to contact the church office with any questions.
