

Fun and Fellowship Coming This Fall to St. John!

This fall brings opportunities for fun, fellowship and learning. There will be some Foodie activities and some Artsy-Crafty activities. Details follow.

Foodie Fellowship

Food is great, but it's even better when it is shared with friends.

Join us in the kitchen on alternating Thursdays to cook up good food and good times together. All ages, tastes and skill levels are invited. Partake in an exploration of familial, cultural, and seasonal traditions where we will learn about food, history, and each other through stories and food.

The maiden meal of this flavorful fellowship will be **Thursday, September 27 at 5:30 pm.**

Open Studio Creative Fellowship

On alternating Sundays this fall we will explore the joys of creation. Not plants and trees or birds and bees, but creating with our hands and minds. All ages and skill levels are welcome. Planned activities will be available for those who want to take part but would like some help getting started. Or you can work independently on your own projects, large or small.

Through many media we will exercise our imaginations and stretch our artistic muscles. Masterpieces need not be made, nor expected. Instead we will focus on the experience of fellowship and the possibility of finding peace in the act of self expression.

Planned activities will be available for those who want to do, but would like some help getting started. Or work independently on projects large or small.

Is there a craft, medium, or style you've been wanting to try or one you would like to share with others? We'd love to help you make it happen! Tell us about it **after service Sunday, September 23** in our first session and try your hand at water marbling.

Water marbling is a centuries old process where pigment is floated on top of water, swirled or streaked with tools, then transferred to a sheet of paper or fabric.

Come check it out and learn more after the service on September 23.

Contact Ashleigh Altemann if you have questions.
