

# Soil School for Arborists

*Camp Emerald Bay, Santa Catalina Island*  
*March 29 - April 2, 2017*

Soil School for arborists teaches basic soil science at Catalina island in a geologically diverse setting. The meeting convenes from Wednesday evening to Sunday mid-day. Cost includes all meals and the boat ride over (parking at the marina is not covered) Twenty-two hours of Arborist CEUS are awarded for this meeting. There will also be opportunities for hiking, bird watching, aquatics and just relaxation on this destination meeting place at Camp Emerald Bay.

All areas of soil science will be covered from soil formation to soil biology and chemistry. Basic soil experiments will be

conducted on the island and emphasis will be placed on analyzing soils in a field setting.

Specific exercises will cover soil bio-assays, basic mineral nutrient contents, soil salinity analysis, soil bulk density calculation, water infiltration, soil moisture determination both electronically and gravimetrically, and soil textural analysis. There will be evening campfires, movie night and Tracey's gourmet food as well as Jim's coffee.

25.5 - CA / CTW / MS

20 - BCMA-S

5.5 - BCMA-P

**We will be departing from San Pedro Harbor for Two Harbors at 2:55 pm on Wednesday, March 29th.**

**We're set to return to San Pedro on Sunday, April 2nd at 6:00 pm.**
