

What is a Patient Portal?

A patient portal is a secure website that gives patients convenient 24-hour access to personal health information from anywhere with an Internet connection.

What can I do with the Patient Portal?

- View your personal health information
- View your medication list
- View your treatment plan
- Update your personal information
- Send secure messages to your practice
- View statements and make online payments

How do I login to the Patient Portal?

I am a new Patient Portal user

- 1** Ask the staff at your doctor's office about registering your email for the patient portal.

A confirmation email will be sent to the email you provided. Follow the url in the confirmation email to create a password. You may then log into your account using the username and password. To protect the privacy of your medical information this information should be kept secret.
- 2**
- 3** Accept the *Terms of Use* by clicking "Next" at the bottom of the screen.
- 4** Upon logging in, a pre-populated message will pop-up. Click "Send Message" to notify the practice that you have successfully logged in. This will allow you to access the Patient Portal.

I am an existing Patient Portal user

The Patient Portal url has changed. Please use the new url listed below and continue to login with your existing username and password.

<https://modulemd.com/patientportal>

If you have any trouble logging into your account, or have questions about Patient Portal, please contact the staff at your doctor's office.
