CONSTRUCTION COMPANY

DESIGN/BUILD

www.dellagnese.com

Dellagnese Construction Company, Inc., founded in 1972, offers complete design/build commercial construction services in Akron and the surrounding areas. Dellagnese Construction developed and built most of the commercial office buildings that now make up Embassy Parkway in Fairlawn, Ohio. Decades of experience have made designing and building commercial office building our expertise. Dellagnese Construction also works along-side John Dellagnese & Associates, Inc., a commercial real estate property management company, to provide custom designed tenant spaces to meet client needs.

PROJECT ARCHITECT / DESIGN POSITION

We are currently seeking a skilled Project Architect to develop design concepts and provide project support during all phases of design and construction from inception to completion. The Project Architect would work directly with our construction Executive Vice President to provide high-quality designs that meet the needs of our clients.

The candidate for the position must have the following qualifications:

- Be a licensed Project Architect
- Take responsibility for and seal final drawings
- Be able to work simultaneously with multiple parties to complete projects
- Have a thorough knowledge of Building Codes
- Have an above average proficiency using AutoCAD

The candidate for the position should also have experience in the following:

- Hiring and managing third-party Engineers and Consultants
- Meeting with potential clients for construction and tenant build-outs/renovations
- Preparing pricing drawings and construction drawings
- Preparing square footage/BOMA calculations
- Be familiar with medical office building codes

Please submit resumes and inquiries to: frontdesk@dellagnese.com
