

## ThenDesign Architecture (TDA)

### What we need:

We are seeking a mid-level registered architect. One who has expertise in educational planning, designing public projects, and sports/recreation. Desire to work for a firm that is considered a thought leader in our industry makes you a great fit. Degree in architecture from an accredited university preferred who possess exceptional interpersonal and project management skills. Developing projects from programming, conceptual, schematic, and design development through construction documentation and specification. The successful applicant(s) will be working with our team of incredibly talented, energetic and intelligent staff members in developing high performance design teams. Candidates must have the ability to accomplish multiple tasks and deadlines, a willingness to mentor new professionals and a passion for architecture. Eight or more years of experience in the industry is preferred. Proficient Revit software experience preferred.

### What you get:

Collaborative work as a team and client engagement. The best software tools, when you need them. A learning environment where you can expect high responsibility to gain a wide range of experience. Company culture that allows you to direct your career path. Perks that ensure you know you are valued and provide work/life integration.
