Intern Architect

Dorsky + Yue International has an immediate opening in our Cleveland office for a graduate or recently licensed architect. Must have a strong ability to work collaboratively with the project team in a fast-paced environment, from schematic design through construction administration.

The candidate should have some experience in commercial and retail markets, as well as being detail oriented in the development of construction documents. Proficiency in Autodesk software including AutoCAD and Revit is required, and experience with Photoshop and Adobe Creative Suite software is desired.

Our international, award-winning practice focuses on large-scale mixed-use projects, upscale specialty town centers, and mid- and high-rise multifamily living — all for clients who are leaders in their industries.

If you have those special talents and want to work on interesting and challenging projects, as well as be part of a collaborative teaming culture — send us your resume at
