Architecture Office

5401 Hamilton Avenue
Cleveland, OH 44114

About AO: Architecture Office is a contemporary architecture practice located in Cleveland Ohio that uses collaboration and iterative design to discover a project concept while carefully examining client needs. We work extensively with physical prototyping and consult heavily with tradesman to develop new and sometimes reuse historical methods of construction. We find working physically with materials offers insight into construction methods otherwise not possible. Our work can be seen at www.thearchoffice.com.

MID-LEVEL ARCHITECT

Architecture Office is seeking a driven and highly motivated project manager with 3-5 years' experience with a passion for design and construction detailing. The candidate should have an interest in research driven design, material exploration, digital fabrication, urban strategies and spatial cognition. Knowledge of Revit for production of construction document level drawings is a requirement. Experience with other digital tools such as Grasshopper, Rhino, Sketch-up, Vray, Digital project and 3DS max are a plus. Photoshop post production skills as well as a working knowledge of Illustrator, and In-Design should be highlighted in your portfolio. A masters or higher level degree is preferred but not a requirement.

Please forward your CV and Portfolio to info@thearchoffice.com or (preferred) a link to an online portfolio. Salary is commensurate with experience.
